Reasons for Allowance

The following is an examiner's statement of reasons for allowance:

Independent claims 1, 3, 4, 5, and 6 are allowable over the prior art of record. Claims 2, 7-8 and 11, 12, 5-9 and 13 depend from claims 1, 3-4 respectively, therefore, are allowed.

Independent claims 1, 3, 4, 5, and 6 recite the limitations of : a rounding method determination unit which decides whether a positive rounding method or a negative rounding method is used for pixel value interpolation in said motion compensation,. The combination of these features as cited in the claims in combination with the other limitations of the claims, are neither disclosed nor suggested by the prior art of record.

The closest reference of US 6282243 to Kazui et al. discloses similar inventive concept (using either a positive rounding method or a negative rounding method for interpolation intensity values of pixels in performing the motion compensation to decrease the rounding error) to that of the instant invention. However, the filing date of Kazui reference is 11/18/1997 is later than the foreign filing date of the instant application, 6/9/1997, which deemed to be the filling date of the instant application because applicant has filed the English translation of the Japanese Priority Application in the parent application 09/513688. Thus, Kazui reference can not be used as a prior art.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
